\*Term ends during ESOC 2016

The SU committee decided to create an online certification tool for ESO stroke unit and ESO Stroke centres during the Meeting ESOC 2015 April 17th in Glasgow. The intended project was submitted to the ESO board and approved (August 28<sup>th</sup> 2016).

Thereafter the committee met for two face to face meetings. The first meeting was held in Basel over two days (29./30. October 2016). The ESO office prepared the technical background for a web based electronic certification tool and the corresponding budgets. After final approval from the ESO board the FtF Meeting was planned and the committee filled the details of the certification requirement in the electronic sheets. Further the requirements for auditors were defined. In the second FtF meeting, held in Frankfurt March 15<sup>th</sup> 2016, the ESO stroke unit and centre certification web site was tested and corrected were applicable.

The website will be launched at the ESOC 2016 in Barcelona at [www.eso-certification.org](http://www.eso-certification.org).
