Report of the Dementia Committee

(Chair: Ana Verdelho)

- Second meeting 22 May 2019 (ESOC Milano 2019)
- Discussion of the two papers with practical points of view for clinical guidance on
 - 1. Cognitive impairment due to cerebrovascular disease;
and
 - 2. Vascular pathologies in patients with cognitive impairment
- After discussion of content, a decision was taken on keeping both papers
- The final version of the two drafts are currently being reviewed by the authors
- As a considerable time has elapsed since first approval by the Executive Committee, the two drafts will be send to the Executive Committe in the end of may (after the revision proccess ended) to ask for approval of the two documents
