

ESO Sponsor and Cooperation Opportunities for Industry - 2017

- **ESO- EAST**

The ESO's major objective is to improve and optimise the management of stroke in Europe, including the provision of medical education to healthcare professionals and the lay public in Europe, and offering best practice approaches. The ESO-EAST is a 5 year project initiated in 2015 to offer collaboration with selected physicians from Eastern European countries, in order to optimise and implement Stroke Care best practices in their countries and to start a mutual and fruitful collaboration. ESO-EAST is well underway and growing each year. Accordingly, supporting this project will allow the ESO to extend its reach and impact in Eastern European Countries. Read more: <http://eso-stroke.org/eso-east/>

Commitment: 25,000 EUR

- **European Master in Stroke Medicine Programme:**

This is a Master's Programme educating future stroke researchers in Europe. The faculty consists of top European experts and this course is held at the Danube University in Krems, Austria. Presently it is in its third run it has participants from 15 countries. It is supported also by the World Stroke Organisation.

Scholarships of 6,000 EUR each (50% of tuition) with the name of the Sponsor can be offered. They will be awarded by the scientific committee of the programme.

Benefits

- Sponsor name and logo advertised with the scholarship
- Sponsor can promote scholarship and recipient
- Direct impact on internationally recognised stroke education

Commitment starting at 6,000 EUR

- **Blog**

In 2017, the ESO will debut a society blog. Support the success of this new discussion space and sponsor a blog topic. This can be in the form of a sponsored guest blog or topic submitted by the sponsor.

Benefits

- Sponsor a blog post to feature your company's actions, interesting research, etc.
- Logo included with blog article
- Blog pushed on Twitter, retweets from the sponsor encouraged
- Opportunity to start a discussion

Commitment starting at 3,000 EUR

- **ESO Stroke Summer School:**

The ESO stroke summer school belongs to the most important events of ESO since the future generation of stroke physicians from all over Europe participate in a five day training in management and prevention of patients with acute stroke. For the past 10 years this summer school has been extremely successful by attracting many young stroke physicians and researchers. The 2017 ESO Stroke Summer School will take place in Larissa, Greece.

Commitment: There is no fixed level of support, but usual amounts for international sponsors are 10,000, 15,000 or 20,000 EUR of organisational support (unconditional educational grant)

- **ESO Stroke Winter School:**

ESO, together with ESMINT and ESNR, organises a winter course for young stroke physicians and neuroradiologists on the topic of acute interdisciplinary stroke treatment. The goal of this course is to enhance interdisciplinary management of patients with acute ischaemic stroke in Europe. A series of concentrated high-quality teaching sessions and courses are offered, including plenum sessions, discussions and technical training. The 2017 Stroke Winter School will take place in Bern, CH from 31 January through 2 February.

Commitment: There is no fixed level of support, but usual amounts for international sponsors are 10,000, 15,000 or 20,000 EUR of organisational support (unconditional educational grant)

- **ESO Department to Department Visiting Programme**

This programme is offered to young scientists and physicians to facilitate training in basic, clinical or applied research related to stroke in European laboratories or clinics. The goal is to maximise the exchange of information and expertise, to provide them an insight into stroke departments outside their country and to help to increase the applicants' future career development. ESO offers this opportunity to 10 persons per year, each grant amounts to 1,500 EUR.

Benefits

- Sponsor name and logo advertised with the Programme
- Sponsor can promote Programme and recipient
- Direct impact on stroke education

Commitment: Sponsor an individual 1,500 EUR

- **ESO Research Stipend**

ESO offers the Research Stipend Programme to young scientists and physicians from lower-middle income European countries to facilitate their conduct of and training in basic, clinical or applied research related to stroke in European laboratories or clinics. The goal is to support successful candidates' future career development and, in general, to increase research activity and to help grow a pool of well-trained research scientists focused on problems in stroke in lower-middle income European countries.

ESO Research Stipend supports researchers from Eastern European countries with a long-term support of 3 years in order to enable a PHD.

1 ESO Research Stipend: Euro 10,000 EUR per year, duration maximum of three years.

Benefits

- Sponsor name and logo advertised with the scholarship
- Sponsor can promote scholarship and recipient
- Direct impact on stroke education in Eastern European countries

Commitment: Three year commitment of 10,000 EUR per annum

- **Further activities**

- Have an idea for a workshop?
- Want to offer a scholarship?
- The ESO would be pleased to discuss any ideas from the industry. Contact Jennifer Thomsen (Jennifer.thomsen@eso-stroke.com) to discuss collaboration.
