CHAPTER I

NATIONAL STROKE NETWORKS

ESO Trial Alliance (ESOTA) Workshop

- Survey Results -

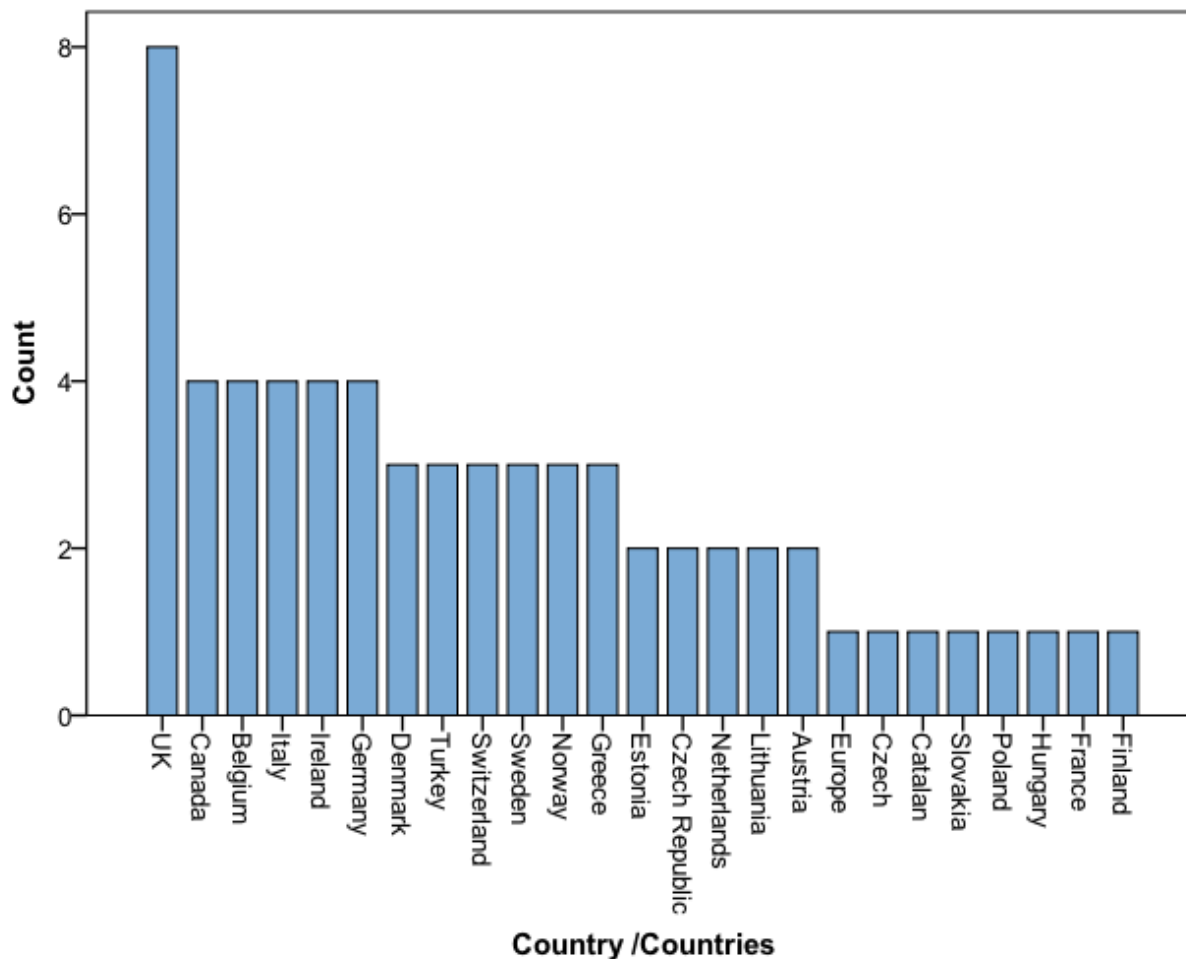

Is there a multidisciplinary stroke network in your country?

ESO Trial Alliance (ESOTA) Workshop

- Survey Results -

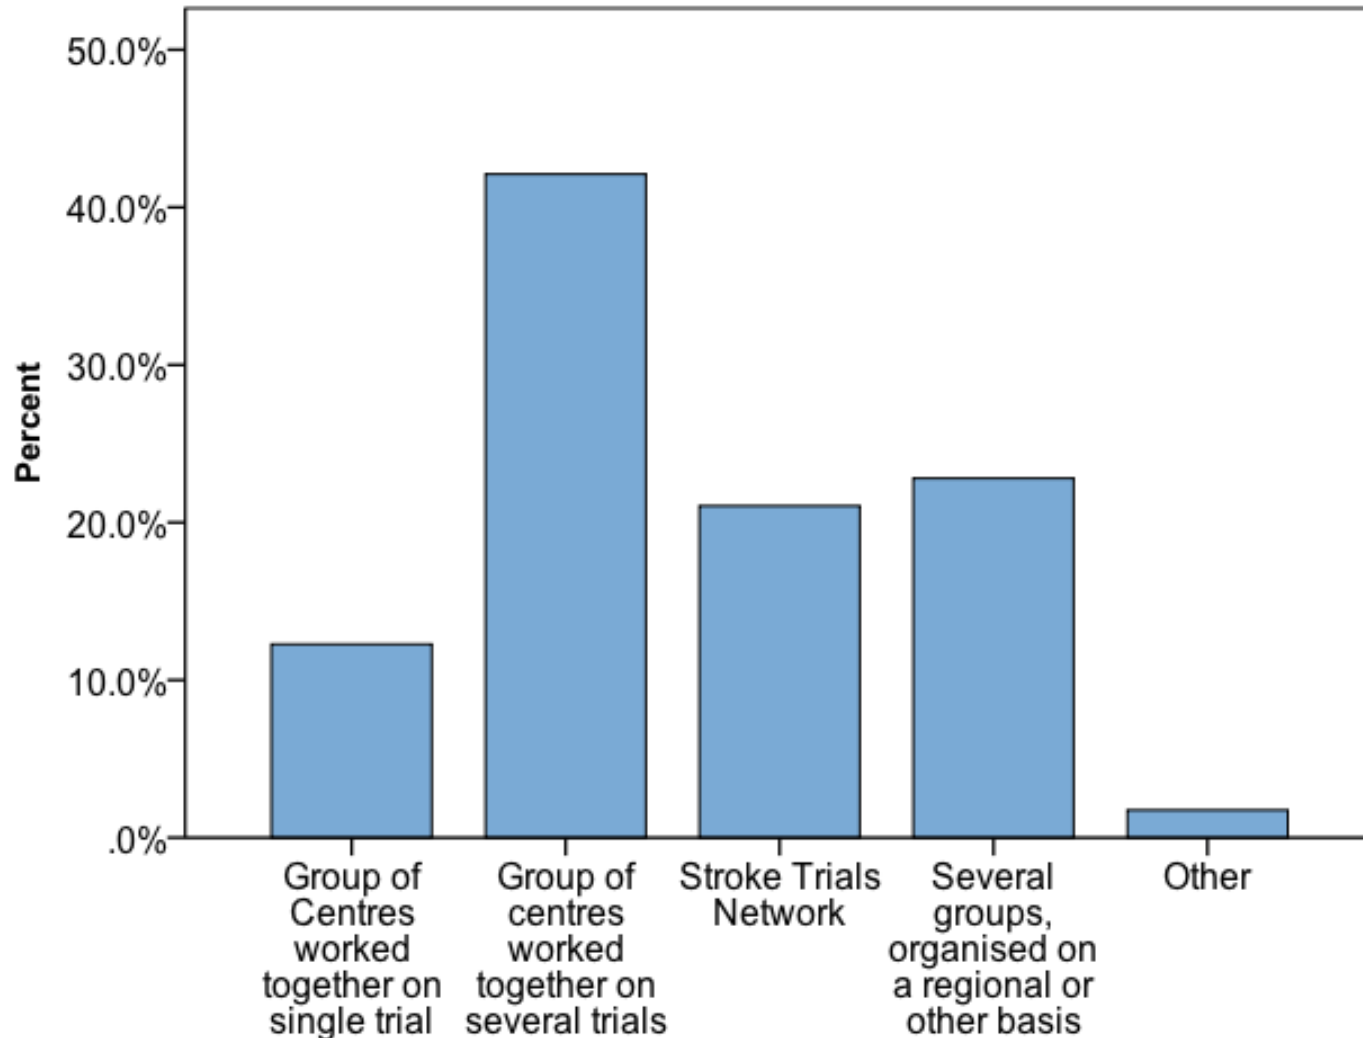

Is there a multidisciplinary stroke network in your country?

ESO Trial Alliance (ESOTA) Workshop

- Survey Results -

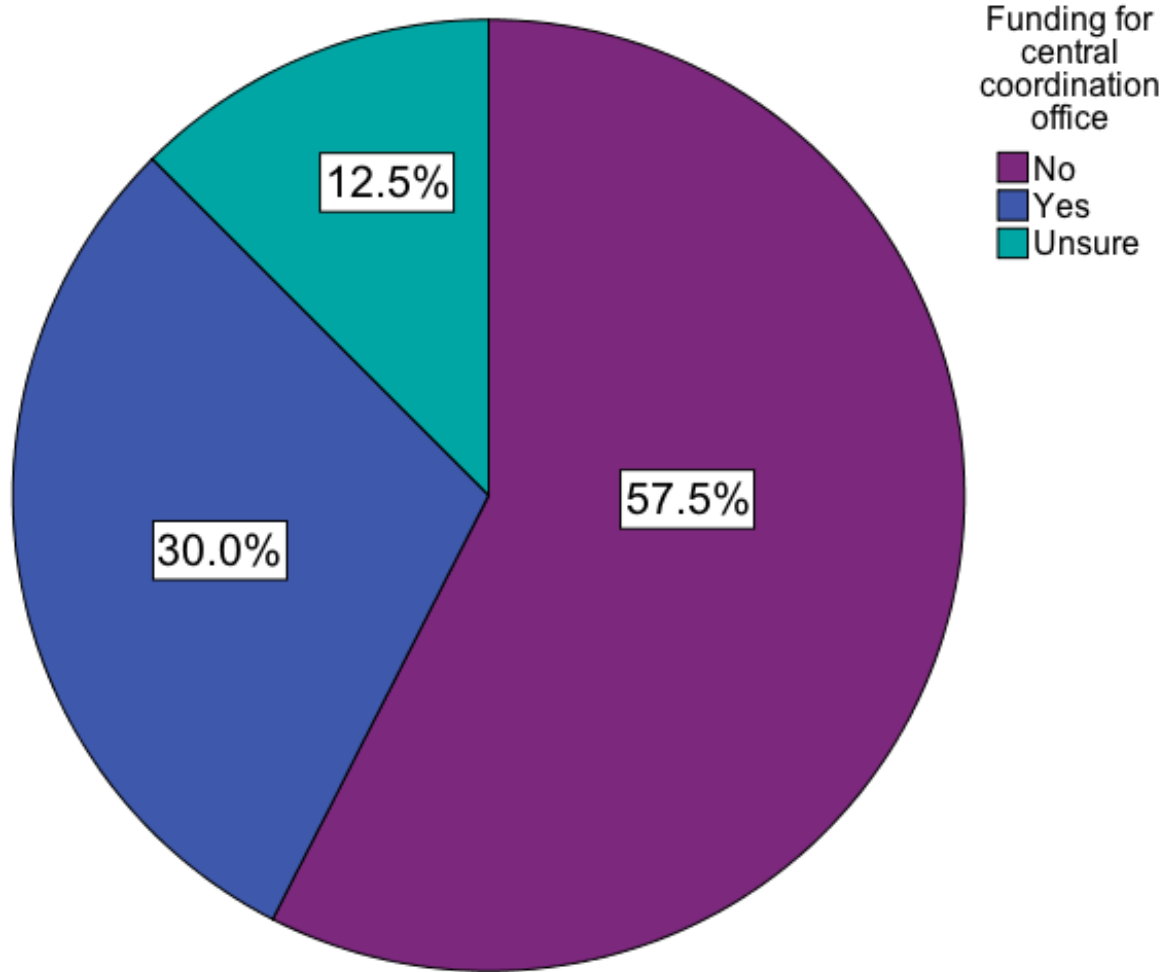

What is the structure of this network?

ESO Trial Alliance (ESOTA) Workshop

- Survey Results -

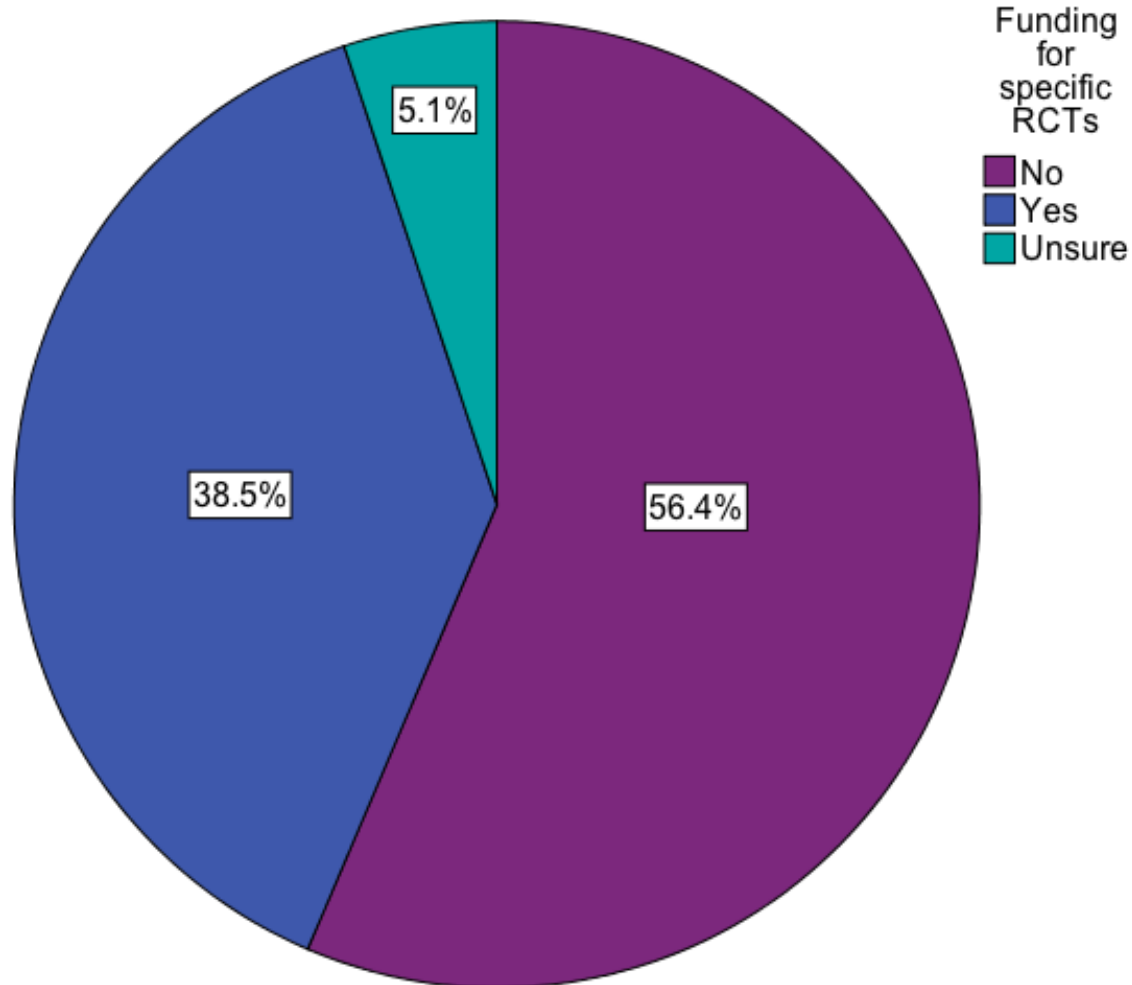

Funding for central network coordination office?

ESO Trial Alliance (ESOTA) Workshop

- Survey Results -

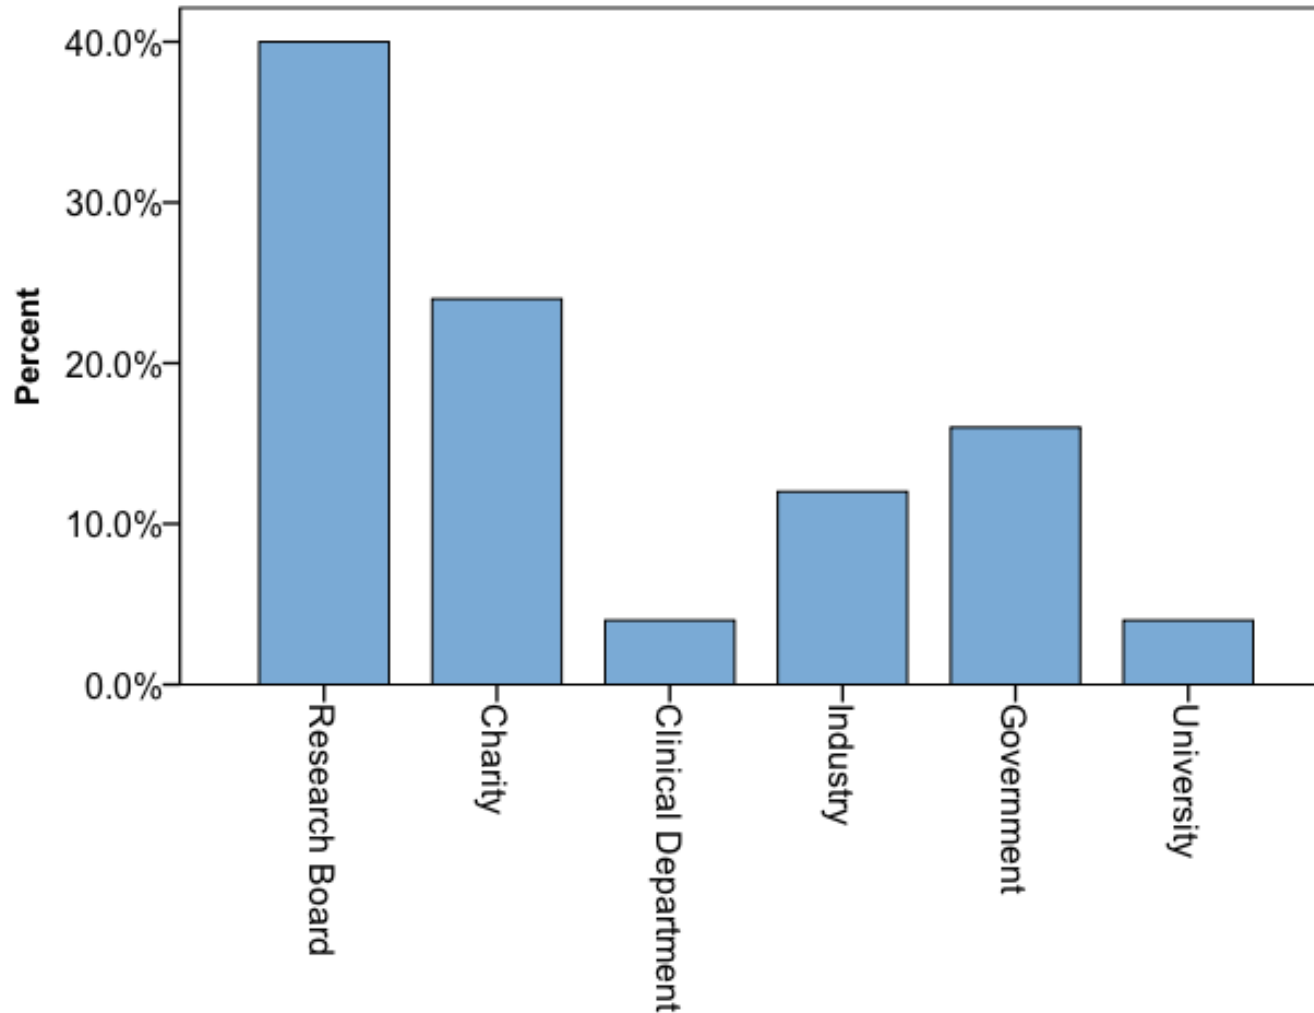

Funding for clinical trials within network?

ESO Trial Alliance (ESOTA) Workshop

- Survey Results -

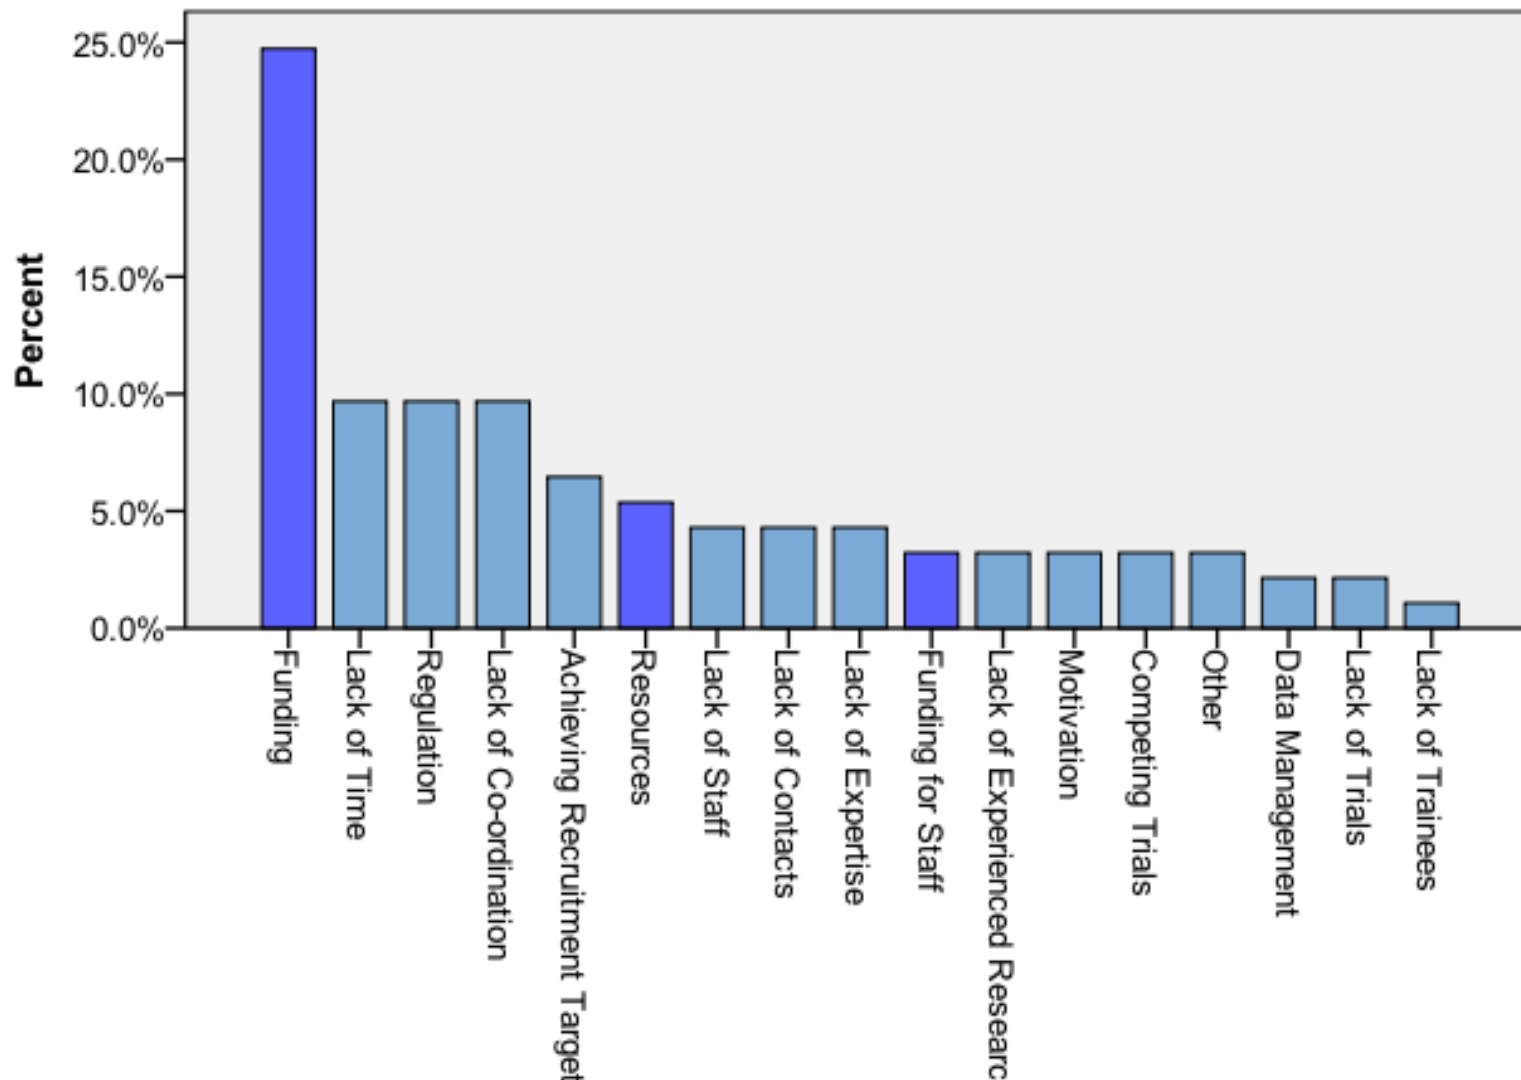

Sources of network funding?

ESO Trial Alliance (ESOTA) Workshop

- Survey Results -

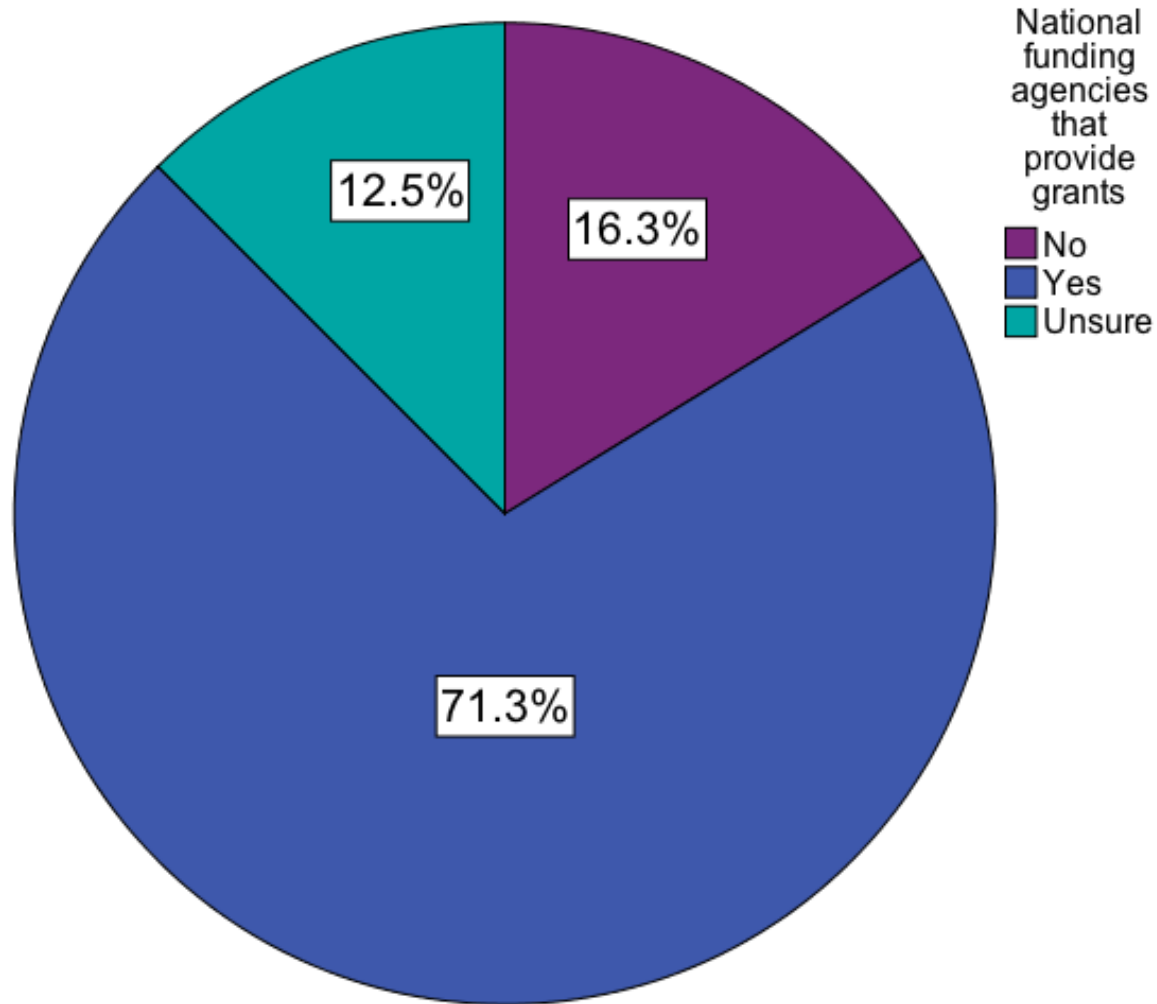

Biggest challenges for your network?

ESO Trial Alliance (ESOTA) Workshop

- Survey Results -

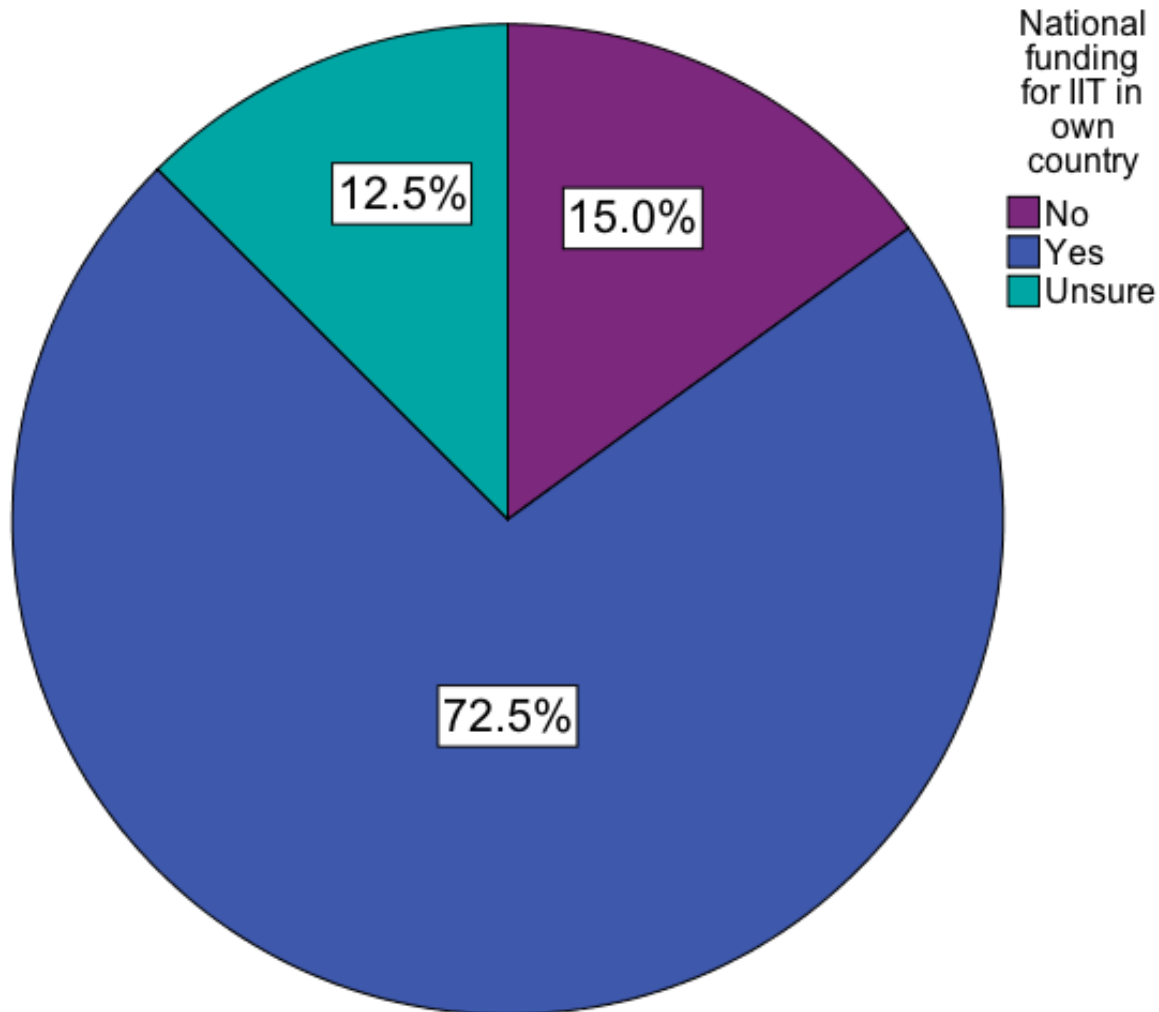

National funding agencies for RCTs?

ESO Trial Alliance (ESOTA) Workshop

- Survey Results -

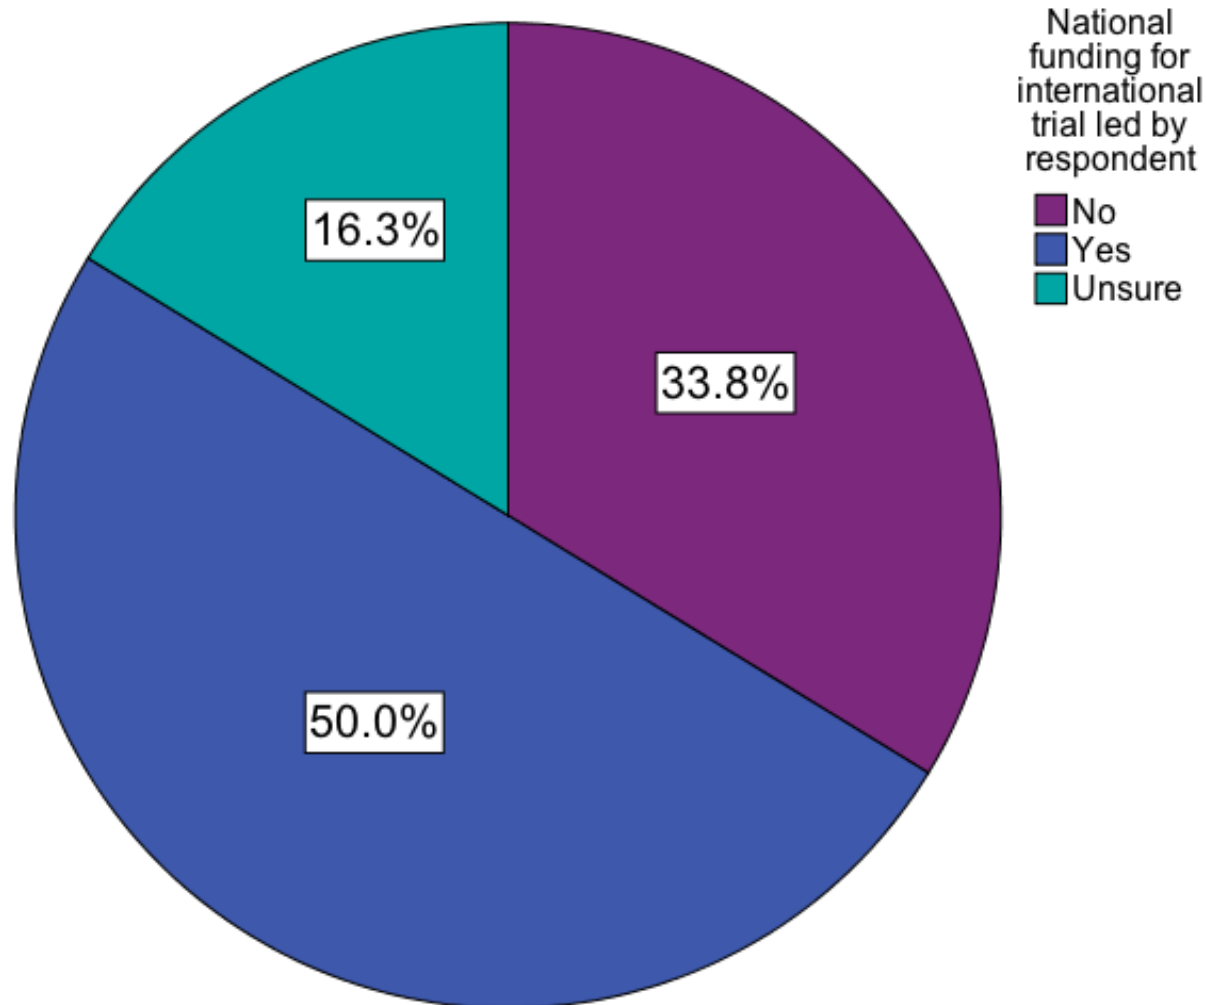

National funding received for national RCT?

ESO Trial Alliance (ESOTA) Workshop

- Survey Results -

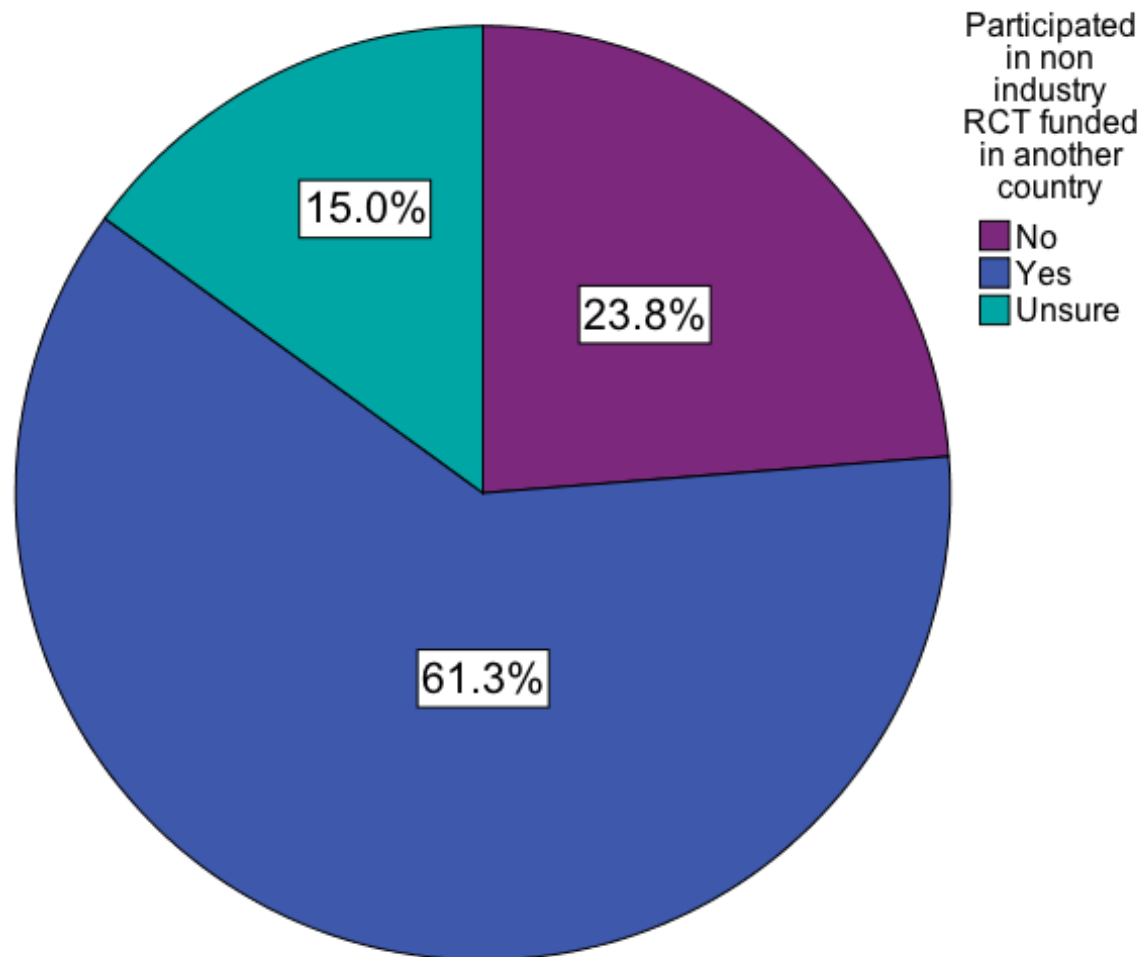

National funding received for international RCT?

ESO Trial Alliance (ESOTA) Workshop

- Survey Results -

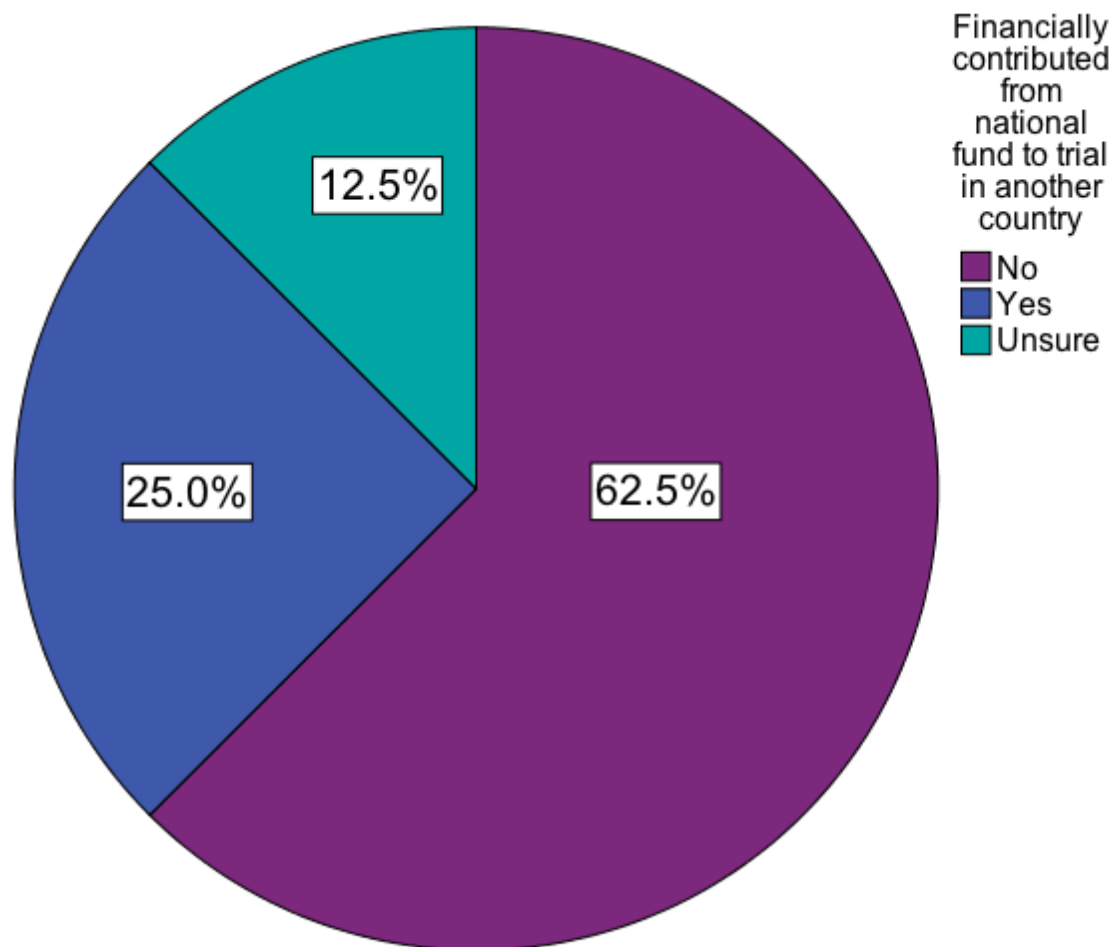

Participation in a non-industry multinational RCT funded by another country?

ESO Trial Alliance (ESOTA) Workshop

- Survey Results -

Participation with national funds in a non-industry multinational RCT funded by another country?

CHAPTER II

ESO TRIAL ALLIANCE NETWORK

ESO Trial Alliance (ESOTA) Workshop

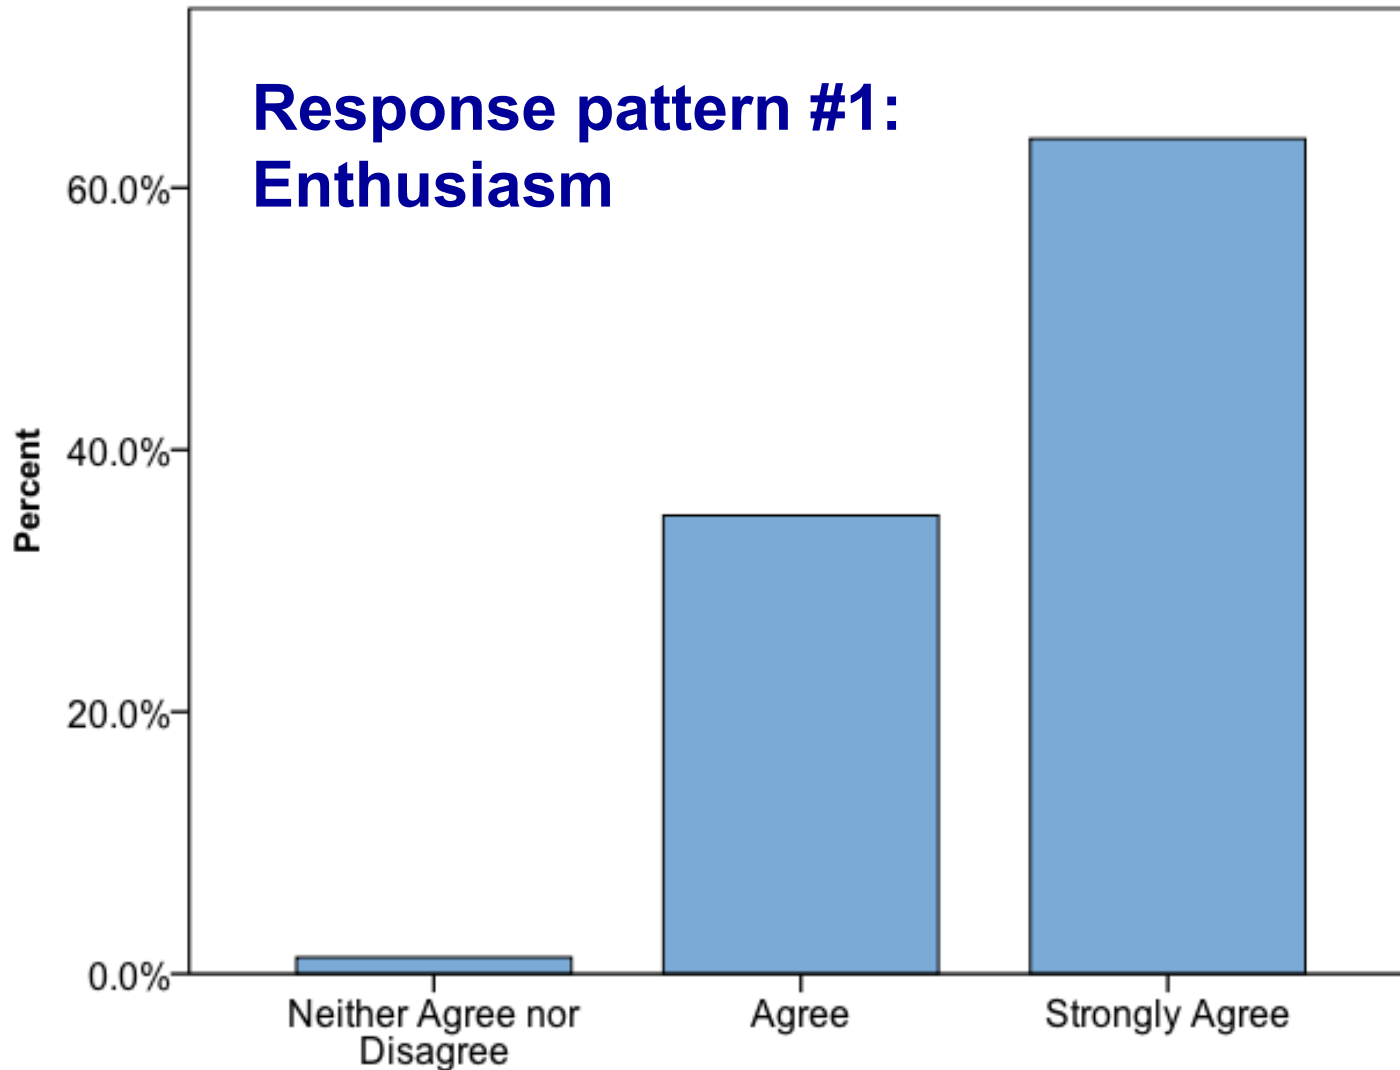

- Survey Results -

A ESO Trial Alliance should...

ESO Trial Alliance (ESOTA) Workshop

- Survey Results -

A ESO Trial Alliance should...

ESO Trial Alliance (ESOTA) Workshop

- Survey Results -

A ESO Trial Alliance should...

- be developed in a gradual step-wise way
- be guided by its members
- regularly report to member centers
- focus on improving coordination between European researchers conducting trials
- identify and communicate European funding opportunities
- develop a secure Registry of European stroke trials investigators to identify 'Trials-Ready' centers
- focus on prioritizing communication of the importance of stroke research to policy-makers, funders and the general public

ESO Trial Alliance (ESOTA) Workshop

- Survey Results -

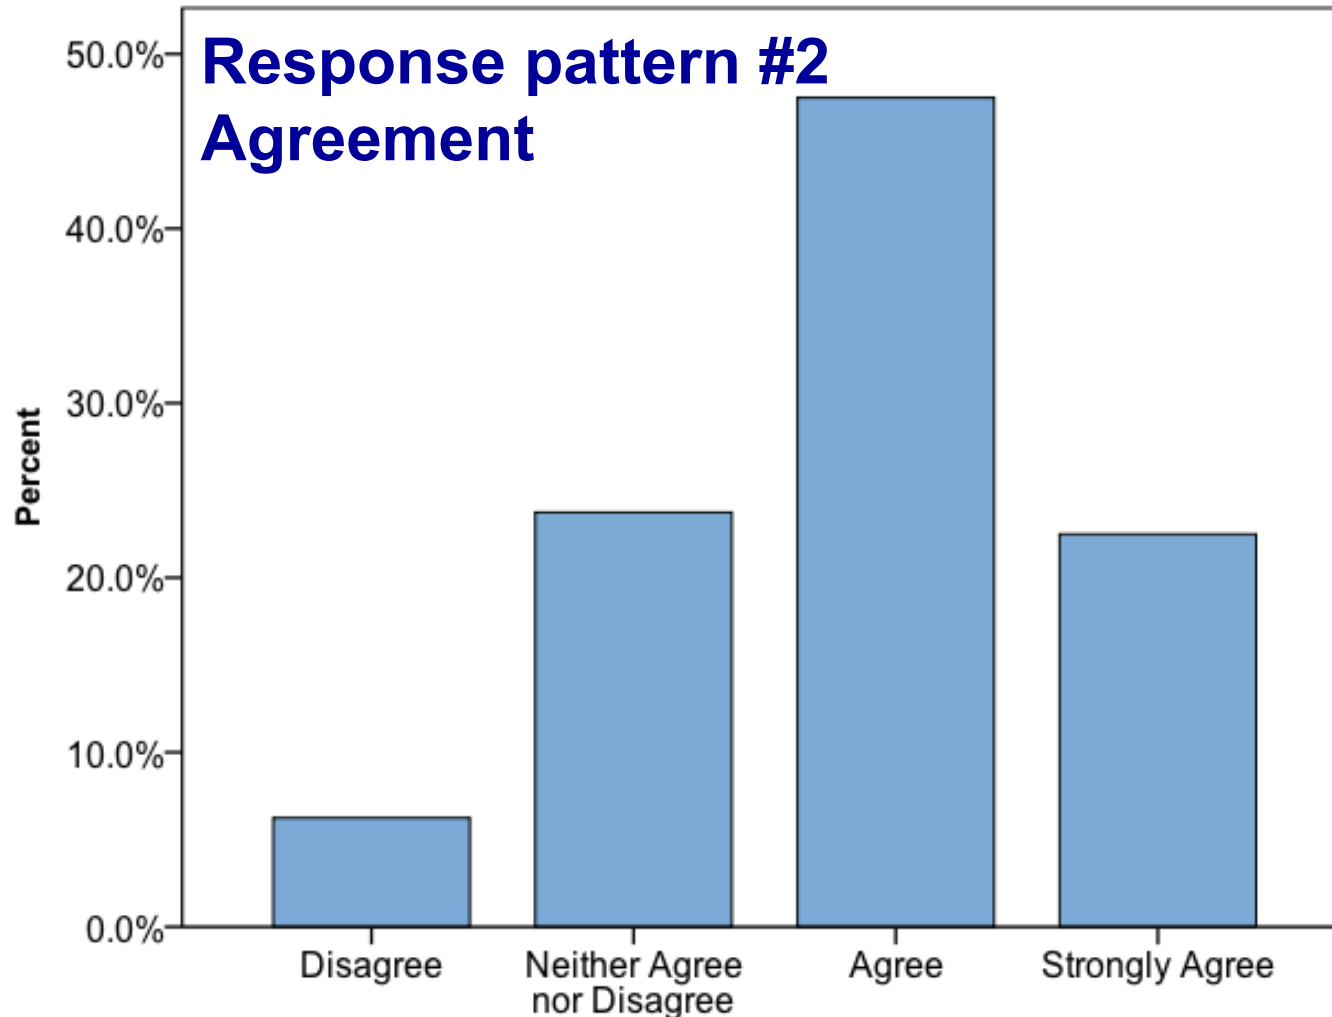

A ESO Trial Alliance should...

- focus on RCTs of new (or new uses of existing) treatments
- include clinical trials of acute stroke
- include clinical trials of stroke prevention
- include clinical trials of stroke recovery and rehabilitation
- increase the n of investigators in stroke RCTs in Europe
- focus on supporting education and training in the conduct of clinical trials (including physicians, nurses, therapists, and support staff)
- focus on supporting training in other categories of clinical research (eg. stroke epidemiology)

ESO Trial Alliance (ESOTA) Workshop

- Survey Results -

A ESO Trial Alliance should...

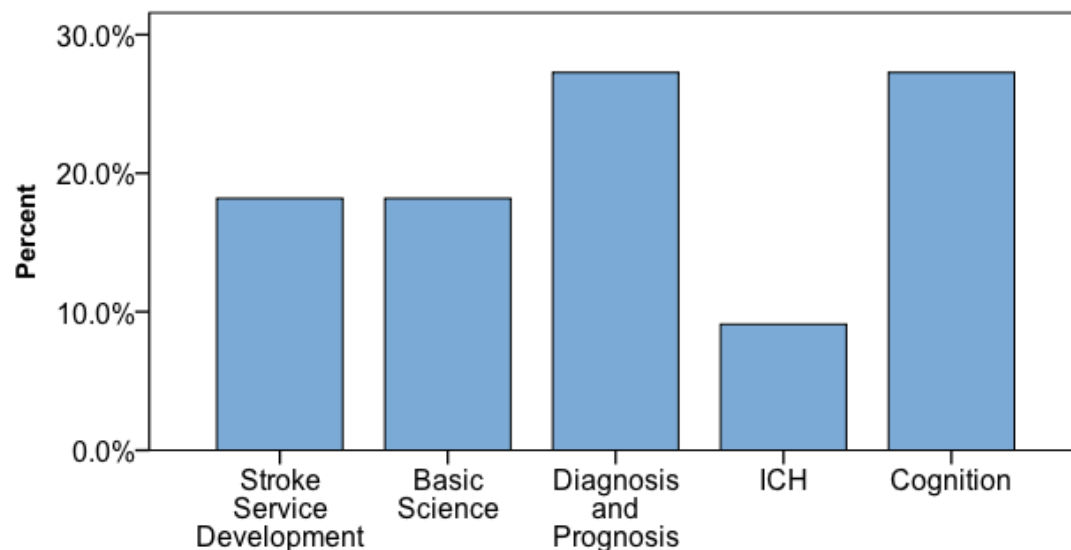

ESO Trial Alliance (ESOTA) Workshop

- Survey Results -

A ESO Trial Alliance should...

- focus equally on clinical trials and other research, such as epidemiological research and observational studies
- interact with industry where relevant to its overall mission (drug, device, or diagnostic industries)
- develop linkages with patient representative groups
- include clinical trials of other areas

ESO Trial Alliance (ESOTA) Workshop

- Survey Results -

CHAPTER III

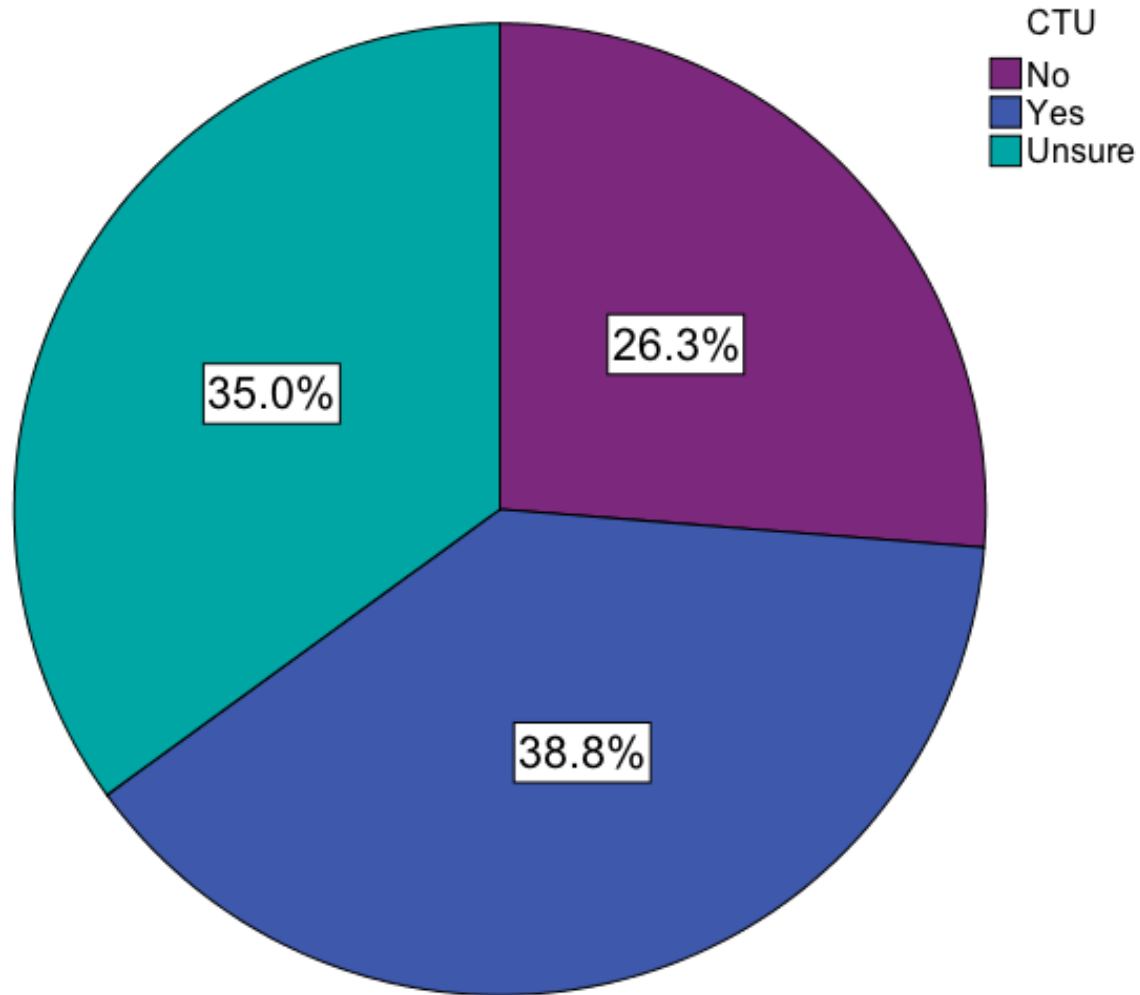

CLINICAL TRIAL UNITS

CLINICAL RESEARCH NETWORKS

ESO Trial Alliance (ESOTA) Workshop

- Survey Results -

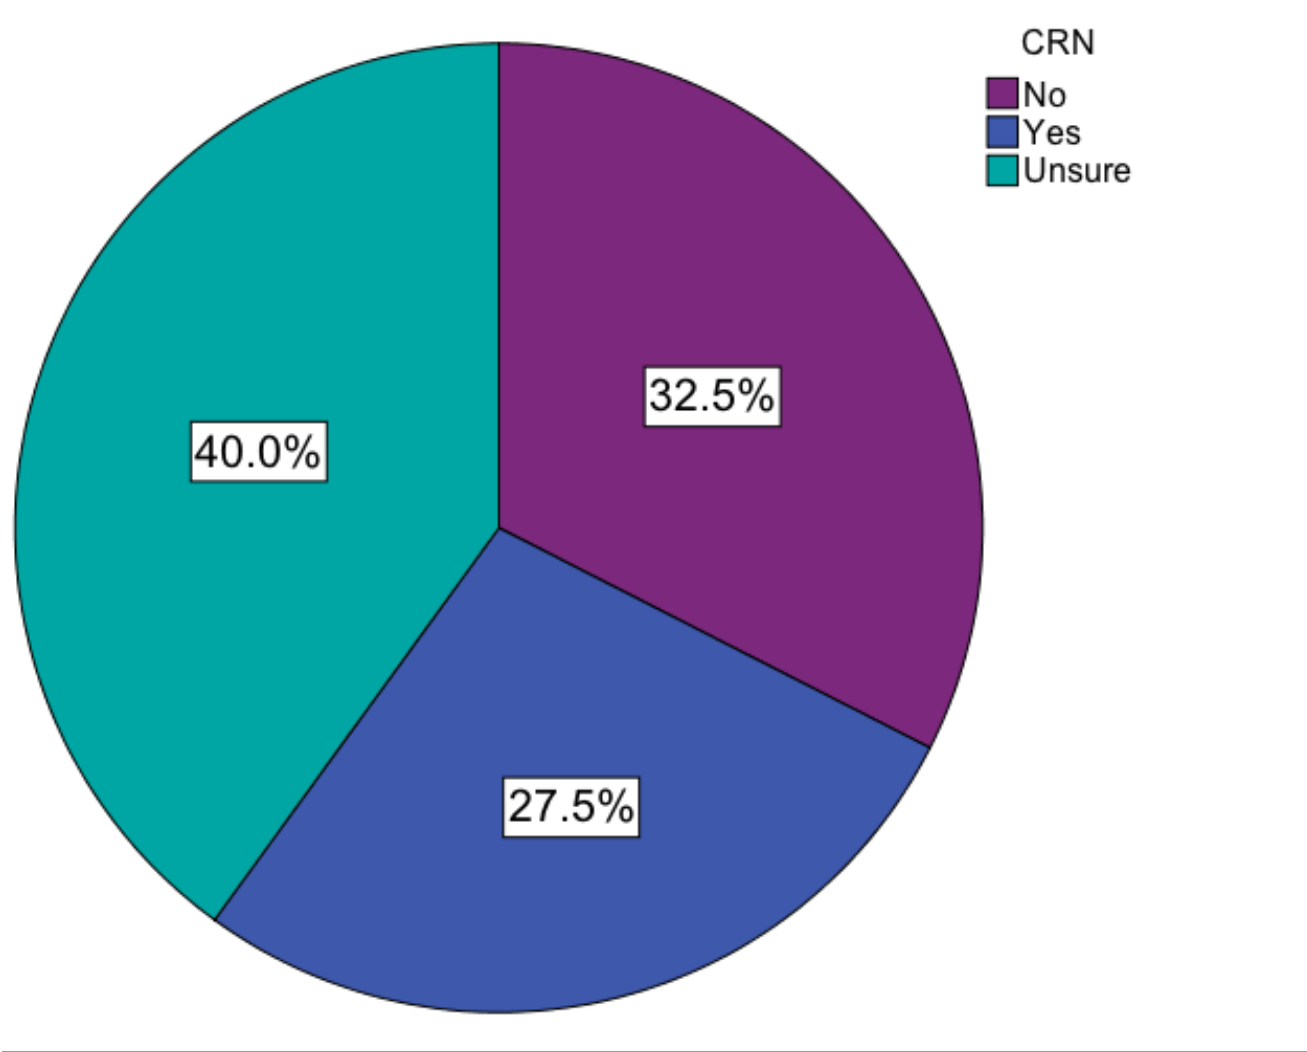

Non-stroke Clinical Trial Units (CTU)?

ESO Trial Alliance (ESOTA) Workshop

- Survey Results -

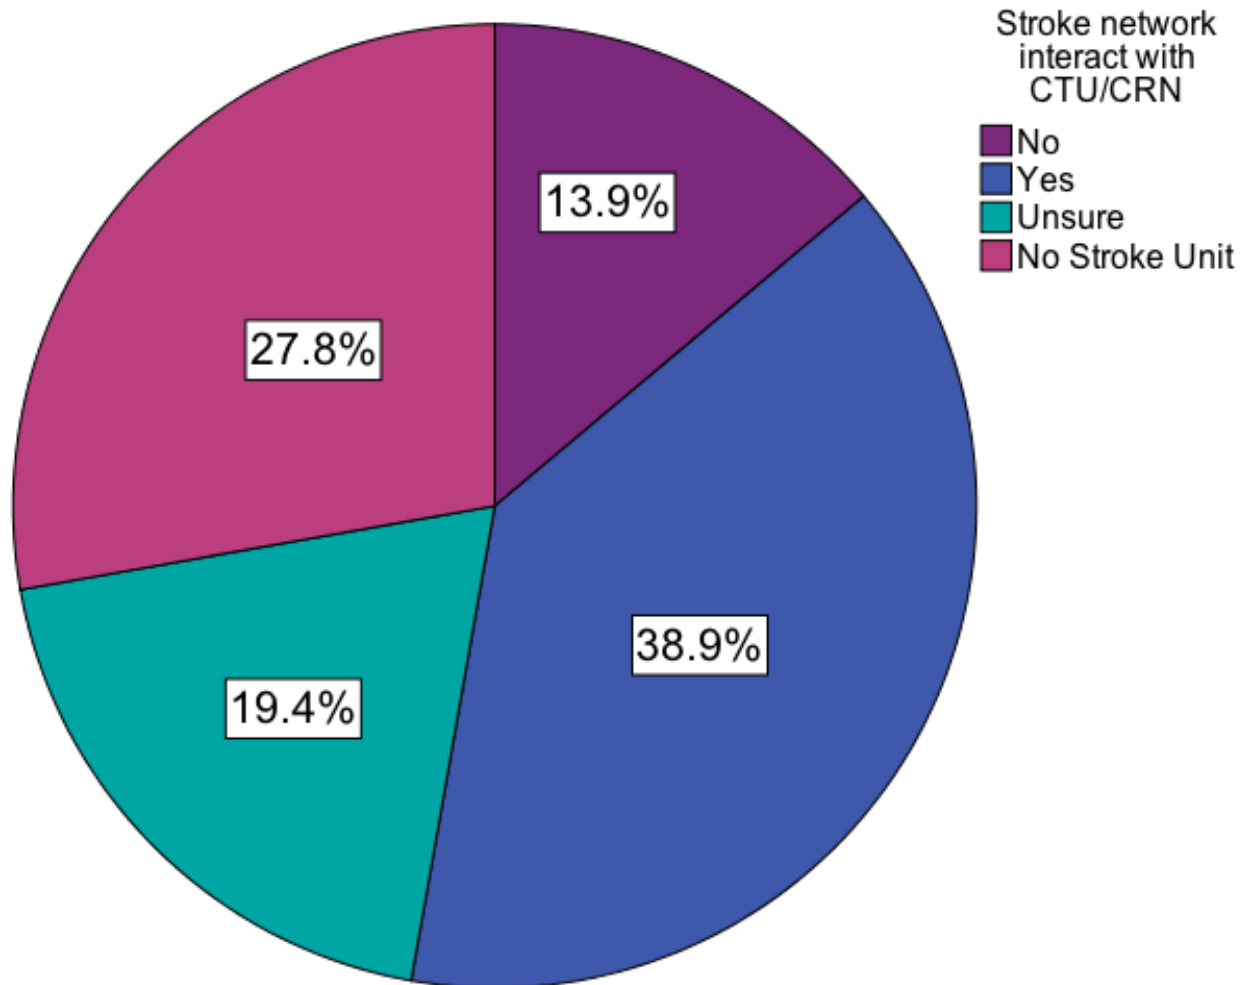

Non-stroke Clinical Research Networks (CRN)?

ESO Trial Alliance (ESOTA) Workshop

- Survey Results -

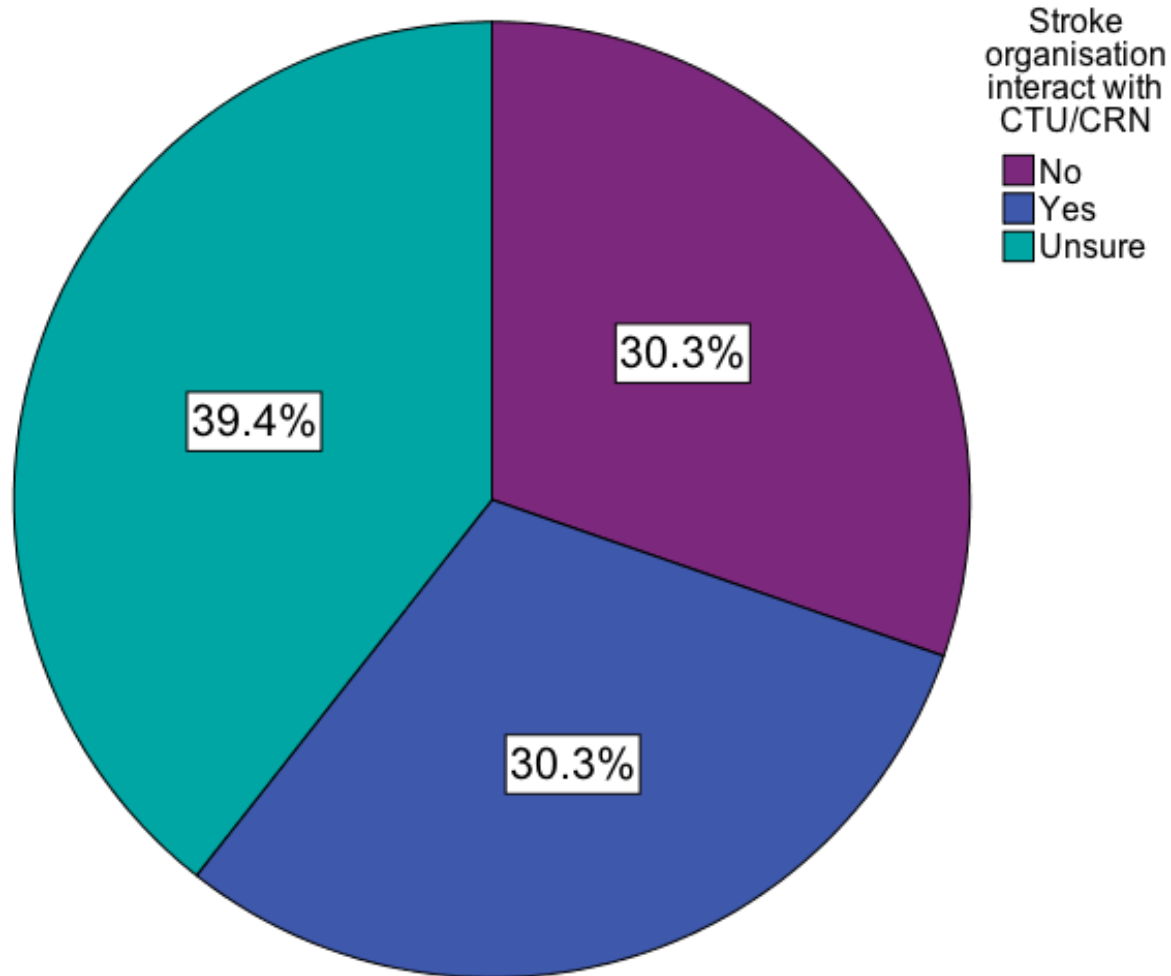

Stroke trial network interaction with CTU or CRN?

ESO Trial Alliance (ESOTA) Workshop

- Survey Results -

National stroke organisation link to CTU or CRN?

ESO Trial Alliance (ESOTA) Workshop

- Survey Results -

Thank you!
