## **Membership:**

The Committee members representation includes persons from European nations, as well as extra-European continents including Australia, North and South America.

## **Meetings:**

During 2023, the Committee did not meet either in person or via web due to a lack of necessity. However, members did keep in contact regularly to discuss by e-mail.

The International Liaison Committee should meet in person at ESOC 2024; if this is not feasible, a web conference should be held during the same time period.
