- Haralampos Milionis, Greece
- Karen Doyle, Ireland
- Nicolas Martinez Majander, Finland
- Stefan Greisenegger, Austria

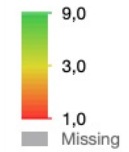

Report of the ESO Membership Committee

- **Goal:**
 - To increase membership numbers. Membership growth is largely achieved by registering new members through conference attendance and acquiring more organisational members (associate members).
 - A secondary goal is to convert associate into full ESO membership.
- **Meetings:**
 - Virtual in February and in-person meeting in Munich during ESOC, email between the meetings.
- **Actions:**
 - Established Memorandum of Understanding/ Strategic Alliance Agreement with Federation of European Neuroscience Societies (FENS)
 - The members of the Membership committee has divided the different countries between them to approach the national societies and the potential members in different countries. Countries with the lowest membership numbers related to the population (see map last slide).
 - Meeting with organisational members was held in November
 - ESO Membership Committee members have contributed to the Fellows Selection Committee
 - Membership campaign has been planned for 2024
 - Emails to members regarding ESO Membership Renewal 2024
 - Participation at the ESO-booth onsite during ESOC in Munich
 - Contact with the national societies regarding ESO membership and visibility of ESO at national conferences
 - Slide kit that may be used at the end of presentations
 - Further plans for collaboration with new organisations, discussions on strategies to recruit members among nurses and other health care providers in the stroke team.
